- Good knowledge of hardware and networking concepts

You must be positive, enjoy life and connect with those around you.

If you believe you have these skills and are of a hard working natured person, please send your resume to siti@techenomics.com

Operations Manager – International Lubrication Company

Lead the way for our Laboratory Chemists and Lubrication Technicians

Now is the time to join this internationally recognised Company who is leading the way forward with Lubrication methods that will soon increase their product range and maximise their larger assets. Based in an attractive region in the Hunter Valley, this location offers a promising lifestyle for singles, couples and families alike.

A fantastic opportunity has arisen for a senior level Operations Manager to join this large scale operation . Providing technical support to the Operations both in the Laboratory and the Field, you will promote a healthy culture focused on Health & Safety whilst working to ensure the Laboratory assets are maximised and targets are achieved.

Real accomplishment will be achieved through supporting sales and development through commissioning and operation of strong relationships with contractors, reporting staff, senior management and other stakeholders. You will be challenged with the management of budgeting, forecasting and cost control and be expected to effectively manage continuous improvement activities within this unique environment.

Experienced managers with the motivation to progress forward will best suite this role. As a strong leader and people manager you will demonstrate high levels of written & verbal skills with advanced software experience.

Previous experience in these fields would be considered an advantage:

- Oil Analysis Laboratories
- FLAC Practices or similar Contamination Control practices
- Fuels and Lubricants
- Mining Operations
- Off shore oil and gas facilities
- On site lubricant usage, application and optimisation

The successful candidate will be rewarded with an attractive remuneration package and the opportunity to live residentially in a vibrant mining community.
